

Public Rights of Way GIS data; Important Information

Please note that the GIS layer showing Public Rights of Way (PRoW) is supplied by Essex County Council for general reference purposes only. The GIS layer does not replace the statutory Definitive Map which is held at County Hall. City, District, Borough, Town and Parish Councils must also keep copies of the Definitive Map for their particular areas. That map, and its associated Definitive Map Modification Orders, must be referred to in the case of any specific query or dispute. In law it provides conclusive evidence of the existence of any Public Right of Way shown on it.
